Forecast for Saturday 20 Nov 2021

Weather: Rain becoming more persistent around dawn, then turning to snow above 900-1000m as it clears southwards around midday. Then a much brighter afternoon with sunshine and scattered showers following, turning wintry above about 800m.

Chance of cloud free mountain/hill tops above 800m: Little chance for much of morning, improving 70% in afternoon.

Visibility: Poor for a time in the morning due to rain and clouds well down the hills. Visibility improving good by afternoon with clouds lifting and breaking up. There will be brief deteriorations to very poor visibility during afternoon and evening as wintry showers pass by and clouds lowering to 700m.

Met Office Aberdeen Meteorologist's View

Difficult walking conditions with strong winds and temperatures falling close to or even below freezing. Conditions exacerbated by the wet weather in the morning followed by wintry showers.

Forecast for Sunday 21 Nov 2021

Weather: A dry, sunny day across much of the Southwest Highland area with just an isolated light wintry shower, mainly over hills towards West Coast. A cold day with a frost in the glens at first, returning during evening.

Maximum wind: Northerly winds with average speeds of 20mph and gusts 30mph.

Chance of cloud free mountain/hill tops above 800m: 95%.

Visibility: Air will have great clarity resulting in excellent visibility with more distant tops clearly visible. Patches of cloud about 700m, mainly towards West Coast.

Temperature: **Glens:** Minus 1 Celsius rising briefly to plus 7 Celsius before falling again towards dusk.

At 800m: Minus 3 Celsius rising to Plus 1 Celsius.

Freezing level: 500m lifting to 900m in the afternoon.
